

DISCOVER LIFE IN AMERICA

IS PROUD TO ANNOUNCE THE

2011 ATBI CONFERENCE

CLIMATE CHANGE AND BIODIVERSITY: APPROACH, ANALYSIS AND SYNTHESIS

SAVE THE DATE!

Keynote
address by
Dr. Tom Lovejoy

April 7 -9, 2011

Great Field Trips
and Workshops

The beautiful
Glenstone Lodge
in Gatlinburg,
Tennessee will
be the host site

We are proud to announce that this is the 14th installment of DISCOVER LIFE IN AMERICA'S ATBI Conference. The purpose of the conference is to highlight the results of recent ecological research and conservation efforts to understand, manage and restore the unique biological diversity of Great Smoky Mountains National Park. In response to growing interest in the national ATBI movement, the scope of the meeting has been broadened to include representatives from across the region, continent and world.

Optional Field Trips and GSMNP Research Colloquium: April 7th

Concurrent Paper, Poster, Workshop and Education Sessions: April 8th and 9th

Keynote Address by the world renowned Dr. Tom Lovejoy: April 8th (afternoon)

Great Smoky Mountains Salamander Ball: April 8th (evening)
